CARE HOME RESIDENTS' FEES

1. The weekly fee for new residents in both the Nursing and Dementia Units is £950 per week.
2. This fee does not include NHS Registered Nursing Care Contribution (Note: This is not means tested but it depends on the resident's needs and is paid directly to the home by the NHS).
3. If the resident has very intensive care needs, an additional charge may be made.
4. In support of the home's aim to provide a home for life to residents whose private funds fall below the threshold for government funding (currently £23,000), there are six places available at the funding level paid by Kent County Council for nursing care. However, these places are not guaranteed and are subject to availability. The allocation of each of these places is fully at the discretion of the management and, in order to apply, residents should give the home at least one year's notice
