

CORNFORD HOUSE CARE SUITES

A home for life for those in need of care

Cornford Lane, Pembury, Tunbridge Wells, Kent, TN2 4QS Telephone: 01892 820100 Facsimile: 01892 820590

A new style of living in privacy and security with assistance and companionship on hand

Independence within a safe and secure environment

Cornford House Care Suites are housed within the new Cornford House building situated in peaceful grounds on the outskirts of Pembury Village, near Tunbridge Wells. Suites are offered on ground floor and first floor and all benefit from a secure entrance to the building. Each beautifully decorated suite has its own front door with letterbox and residents exercise complete control on who may enter their property. There is a choice of studio or one bedroom suites, all with en-suite

shower rooms. All one bedroom suites and some studios offer a beverage area where light snacks can be prepared. Some ground floor suites benefit from patio doors which open directly onto the secure garden.

The comfort and privacy of a home for life with professional help available around the clock

The suites offer an innovative and viable alternative to traditional nursing home care. Residents are owner occupiers of suites in a building where care and support are available 24 hours a day.

On-going costs for owner occupiers are about half the fees for a place in the care home and there is a "buy back" agreement for when residents leave. Residents can join in the internal activities programme whenever they wish.

Choice of carers for help and support

Residents have the choice of using either the Cornford House Care Suites dedicated team of carers available 24 hours a day or any other CQC registered care provider. All Cornford House carers undergo a twelve week induction training period with ongoing training towards

NVQ qualification thereafter. Over 50% of our care team hold an NVQ level 2 qualification or higher. The care team is led by qualified nurses who are available for actual nursing care where required. If a resident wishes to purchase their care from Cornford House there is a Care Agreement drawn up prior to admission which covers both personal and nursing care.

Thriving social and recreational activities

Care suite residents have access to their own communal lounge, dining area and secure garden. Meals are served in the dining room or residents can elect to have their meals delivered to their suite. Cornford House provides traditional home cooked food using seasonal produce wherever possible. The qualified chef is happy to provide alternative choices if requested. Special diets can be accommodated where necessary.

All aspects of the full and varied activities programme run by the nursing home is available to care suite residents as are the hairdressing salon and beverage bar. The home has an occupational therapist and an activities organiser who co-ordinate an active

programme of crafts, games and hobbies, as well as regular events, social activities and excursions. Care Suite residents have complete choice over which activities they wish to join.

About Cornford House

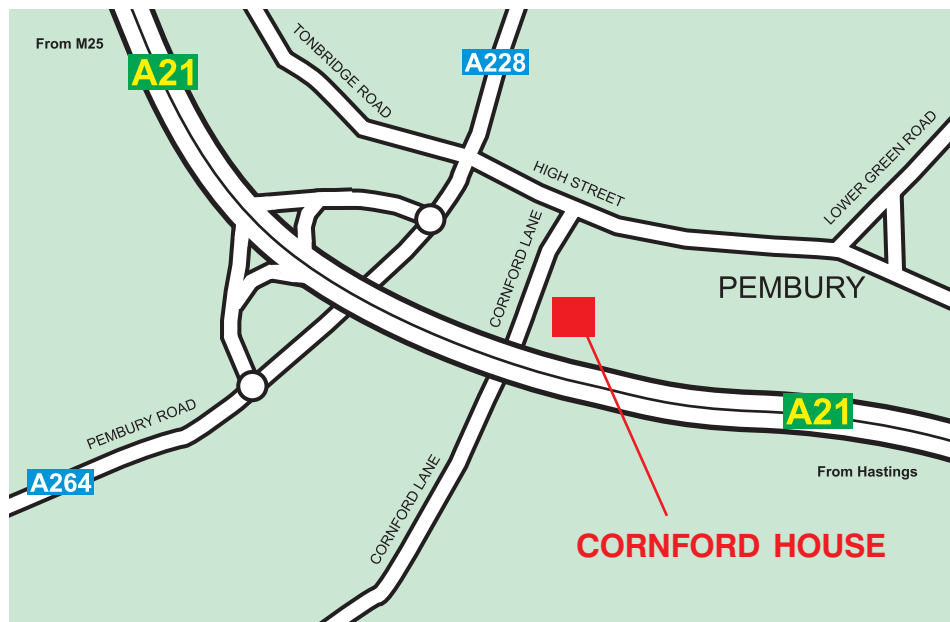

Cornford House has been a home for older people for over 50 years providing full nursing care under the supervision of Registered Nurses. It is owned by a husband and wife team, Ernie and Dr Karen Graham, whose aims are to provide professional care and support in a homely environment.

Entry Requirements to a Care Suite

Residents must be in need of on-going personal care. A trained nurse will undertake an assessment for a prospective resident to ensure that care needs can be met and to provide a quotation for the care agreement.

Terms & Conditions

Full details of all financial and legal matters are available from the Manager.
